

The background of the entire image is a dark navy blue. Scattered across this background are numerous 3D isometric cubes. The cubes are rendered with a slight perspective, showing their top, front, and side faces. They come in three primary colors: a vibrant teal, a bright orange, and a deep red. Some cubes are arranged in small clusters or lines, while others are isolated. The overall effect is a sense of depth and geometric complexity.

# BUILD *it*

TEST IT. TINKER IT.

# BIRTHDAY EXPERIENCES

AT THE SCIENCE CENTER

We have birthdays down to a science! Plan your next birthday with Arizona Science Center. Each package includes entry to amazing exhibitions and hands-on attractions.

## YOUR BIRTHDAY EXPERIENCE INCLUDES

- General Admission to the Science Center and admission to Build It, our current featured exhibition
- Priority seating in the Dorrance Planetarium for a starry presentation
- Onstage birthday mention at one of our daily live demonstrations
- Print-at-home invitations
- CREATE Maker Kit gift for the birthday guest of honor

## PRICING

- MEMBERS \$249
- NON-MEMBERS \$299

Includes up to 10 guests (adults and children). Additional guests may be added for \$25 per person (includes General Admission, Featured Exhibition, and Planetarium tickets). Children under three years of age are FREE. No food or beverages are allowed due to current safety policies. Masks are required for all guests 2 years and older. Please visit [azscience.org/visit/plan-your-visit](http://azscience.org/visit/plan-your-visit) for our health and safety guidelines. All parties must be booked at least two weeks prior to the event date.

## RESERVATION TIMES

9:00 a.m. | 10:00 a.m. | 11:00 a.m. | 12:00 p.m.
